

MD TANBIR HOSEN JOY

AI Data Quality Auditor | Data Annotator | Bangla Language Specialist
+880 1616-367837 | tanbir.h.hossen@gmail.com | Dhaka, Bangladesh

PROFESSIONAL SUMMARY

Detail-oriented AI data professional with hands-on experience in quality auditing, data annotation, language evaluation, and voice transcription. Reviews and rates AI model outputs, audits other annotators' work against strict project guidelines, and evaluates Bangla-language data to keep training datasets accurate, consistent, and reliable. Brings a background in direct sales and marketing that sharpens analytical judgment and client-facing communication, and is actively building expertise in Prompt Engineering.

WORK EXPERIENCE

AI Data Quality Auditor

2026 – Present

RWS TrainAI | Remote

- Review the work of human raters who evaluate and compare AI voice-conversation models, checking every submission against detailed project guidelines to confirm the final ratings hold up.
- Score each review on a structured five-point rubric, catching missed errors, weak justifications, and language or scenario issues before they reach model training data.
- Deliver clear, evidence-based feedback in English for every audited submission, citing specific conversation turns and timestamps so quality stays consistent and each decision is easy to defend.

Bangla Language Specialist

2026 – Present

Outlier | Remote

- Review and rate AI-generated Bangla responses for accuracy, fluency, tone, and cultural fit, improving model performance for native speakers.
- Write and refine Bangla text and prompts so the language reads naturally rather than machine-translated.
- Apply detailed evaluation guidelines to flag errors and inconsistencies, supporting training-data quality for Bangla language models.

Data Annotator

2026 – Present

iMerit Scholars | Remote

- Rate and review AI-generated images for quality, accuracy, and relevance, providing precise feedback that helps machinelearning models improve over time.
- Assess visual content against detailed guidelines and quality standards, maintaining consistent judgment across large batches of data.
- Work directly with professional annotation tools and workflows used in live model development.

Voice Data Transcriber	2026 – Present
<i>Appen Remote</i>	
- Transcribed Bangla audio recordings into accurate written text, following strict formatting and labeling guidelines for speech-recognition datasets. - Maintained high accuracy and consistency across large volumes of audio, carefully handling accents, background noise, and unclear speech. - Contributed clean, well-labeled voice data used to train and improve automatic speech-recognition systems.	

Sales Executive	2024 – 2025
<i>Vision Emporium Dhaka</i>	
- Engaged potential customers through direct sales strategies, consistently meeting monthly targets and driving steady revenue growth. - Built lasting client relationships by listening closely to customer needs and matching them with the right products. - Collaborated with the marketing team on promotional campaigns that raised brand awareness and generated new leads.	

LEADERSHIP & CAMPUS INVOLVEMENT

Campus Ambassador — ICT Olympiad Bangladesh	2023 – Present
Represent ICT Olympiad Bangladesh on campus, promoting technology competitions and connecting students to nationallevel ICT and AI opportunities.	
Campus Ambassador — English Carnival Bangladesh	2023 – Present
Represent English Carnival Bangladesh on campus, organizing events that build peers' communication skills and strengthen personal leadership and public speaking.	

EDUCATION

Bachelor's Degree (Honours) — In Progress	2nd Year
<i>Dhaka Central University, Dhaka, Bangladesh</i>	
Higher Secondary Certificate (HSC)	2023
<i>Adhyapak Abdul Majid College, Cumilla</i>	
Secondary School Certificate (SSC)	2021
<i>Kasba Govt. High School, Brahmanbaria</i>	

PROFESSIONAL DEVELOPMENT

AI & ML Engineering Bootcamp	2026
<i>Ostad, Dhaka</i>	
Completed intensive coursework in Machine Learning, AI Automation, and Prompt Engineering, building a practical foundation for applied AI work.	

TECHNICAL SKILLS

Programming & Tools: Python (Beginner–Intermediate), Microsoft Excel, Microsoft Word

AI / ML: Data Annotation, AI Output Evaluation, RLHF Data Review, Quality Auditing, LLM & Voice-Model Assessment, Image Quality Assessment, Prompt Engineering

Language & Voice: Bangla Language Evaluation, Voice / Audio Transcription, Speech Data Labeling

Languages: Bengali (Native), English (Professional Working Proficiency)

KEY COMPETENCIES

Attention to Detail • Critical Thinking • Quality Assurance & Auditing • AI Data Evaluation • Bangla Language Expertise • Data Accuracy • Direct Sales & Client Relationship Management • Leadership • Communication • Fast Learning • Problem Solving
